

ClicksHQ — Website Guide

Links

- **Website:** <https://clickshq.vercel.app>
- **Admin Panel:** <https://clickshq.vercel.app/admin>

Login

Email: danieleah43@gmail.com
Password: Password@123

All content changes are made in the **Admin Panel**. Open the link, log in, edit, click **Save** — the change goes live on the website immediately.

How to Edit Content

1. Go to <https://clickshq.vercel.app/admin>
2. Log in with the credentials above.
3. Use the left sidebar to pick what to edit.

What you can edit

Pages (sidebar → Pages) Each page is built from sections (blocks). You can add, remove, and reorder them.

- Home — Hero, Features, Pricing, Testimonials, Call-to-Action
- About — Hero, Team, Call-to-Action
- Contact — Contact form (email / phone / address are editable)
- Privacy Policy / Terms — text content
- You can also create a new page with its own URL (e.g. slug `pricing` → `/pricing`)

Available block types: Hero · Features · Pricing · Testimonials · Call-to-Action · Team · Content (rich text) · Contact Form

Posts (sidebar → Posts) Blog articles — title, image, content, author. Set **Status: Published** to make it appear on `/blog` .

Media (sidebar → Media) Upload images, then use them inside any block.

Contacts (sidebar → Contacts) Messages submitted through the website contact form appear here (read-only).

Globals (sidebar → Globals)

- Header — logo text, navigation links, button
 - Footer — footer columns, links, social links, copyright
 - Site Settings — site title, meta description, OG image (SEO)
-

API Access

All content is available via API:

- REST: `https://clickshq.vercel.app/api/pages` , `/api/posts` , `/api/media`
 - Each page/post edit screen has an **API** tab showing that record's direct API URL.
-

Notes

- Built with Payload CMS + Next.js. The admin panel lives at `/admin` .
- Hosted on Vercel; database on MongoDB Atlas.
